DUTIES:

Under the general direction of the Senior Programmer Analyst (Supervisor). The Application Development section is responsible for the procurement or development and maintenance of complex Financial and Information Systems. The incumbent is responsible for analyzing, designing, constructing, implementing, testing, and maintaining client/server and Internet applications. This section maintains mastery and databases, CASE, client/server, GUI and object-orientation, Web and report generators, SQL utilities, and other miscellaneous application technologies. Current tools involve .NET development and Oracle Designer.

DESCRIPTION OF ESSENTIAL FUNCTIONS:

- Leads or assists in analyzing, procuring, developing, testing, installing, providing training, documenting, and implementing complex applications.

- Review, analyze and provide recommendations or solutions regarding system issues.

- Make technical decisions and maintain a high degree of technical expertise and versatility in recommending, designing, constructing, implementing, and evaluating new complex information technology systems.

- Leads or assists in analyzing and resolving production problems, modifying, testing, installing, documenting, and implementing changes for complex applications.

- Review, analyze and provide recommendations or solutions regarding system changes.

- Make technical decisions and maintain a high degree of technical expertise and versatility in recommending, designing, modifying, implementing, and evaluating complex information technology systems modifications.

- Provides written summaries, status reports, time estimates for completion of assignments to upper management.

DESIRABLE QUALIFICATIONS:

- Ability to communicate effectively
- Ability to learn quickly
- Ability to work in a team environment
- Ability to work on multiple concurrent projects or problems
- Ability to work under pressure and complete assignments in a timely manner
- Experience developing and supporting applications in a Windows environment
- Experience using .Net and/or Oracle development tools
- Good work habits
- Strong analytical and problem solving skills
- Willingness to learn new technologies

CONDITIONS OF EMPLOYMENT:

Fingerprinting and Background Check are required.

WHO SHOULD APPLY:

Individuals who possess the qualifications listed above and are interested in a lateral transfer or have employment list eligibility as a Staff Programmer Analyst (Specialist) or Associate Programmer Analyst (Specialist).

This position is subject to SROA clearance policies. Surplus employees who meet the requirements are encouraged to apply. Employees in the State Treasurer's Authorities and Commissions are encouraged to apply if interested in the position. **ONLY THE MOST QUALIFIED APPLICANTS WILL BE CONSIDERED**.

Please state the source of your eligibility (i.e. list eligibility and score, SROA, surplus employee, reinstatement, etc.). If you do NOT indicate the source of your eligibility, you may not be considered for an interview. Also, write the number "820-720-1581-015" next to the classification on your application/resume, i.e., Staff Programmer Analyst (Sp) or Associate Programmer Analyst (Sp) (820-720-1581-015).

FINAL FILING DATE:

Applications will be accepted **until filled**.
